Too revealingBy RannochVery nice book, but I really prefer not to immediately know what the picture is going to look like before doing it!!6 of 6 people found the following review helpful. Don't do it.By L.M.I was so excited to get this box until I opened it up. The numbers looked like baby ants. I had to get my papers blown up so I could actually use it. Even with 20 20 vision you still have to enlarge the pages. Now, I have to spend extra money for enlarging the pages. Would not recommend this book to anyone, unless they want to spend extra money for enlargement.4 of 4 people found the following review helpful. LOVEBy mamachaI bought this for my sister who loves doing dot to dot. She is very pleased with the book because of the binding. Would recommend for anyone who loves this type of activity!
