Sharon A Lavy : Briar Rose (Floral Designs) before purchasing it in order to gage whether or not it would be worth my time, and all praised Briar Rose (Floral Designs):

0 of 0 people found the following review helpful. Baautiful ArtistBy Ana DuncanI love the intricate designs in this book. i would not recommend this book for the faint at heart. If you like a challenge this is your book. This is are more like squared Mandalas but more intricate. Each volume is a surprise. I recommend this book for the advance.

Floral Designs: Briar Rose lets you use your favorite coloring tools to make these exquisite designs pop. Experience pure relaxation as you let the colors flow from your fingertips and onto these 25 coloring designs. Be sure to check the Look Inside feature to see what Amazon has provided for a sneak peek. Back of pages is left blank so that you can frame any of the designs should you so desire. For best results put two or three pages of blank paper under the page you are coloring to avoid bleed through to the next design. We have furnished three extra pages at the back of the book you can cut out to use for this purpose.
