On one side are drawings that are exactly what you'd expect from a book called "Bunny Suicides." The cards must be detached and will thus have a slightly jagged edge, and the paper stock is not the sturdiest, though it should be sufficient to ensure that mailed postcards arrive in good condition. Still, other postcard books tend to have sturdier cards.2 of 2 people found the following review helpful. Survival-humorBy Linda RawlingsAnyone who has ever worked in the mental health industry knows that you have to develop a fairly morbid sense of humor to cope. Or, you can just be one sick puppy and love it anyway!I keep this book at work, and when colleagues are having a bad time, they come and borrow it, and the cute and crazy fluffy bunnies who jump into the deep fat fryer just makes them laugh out loud! Perhaps we can all relate?Most people read these and take a minute to realize what's happening on each page. And then there is the ten seconds of realization followed by brief disgust and poorly hidden childish glee.Seriously, if you were a suicidal bunny, how would YOU do it? Jump into the blender at Ben and Jerry's? The sky's the limit!It's so bad, it's good!0 of 0 people found the following review helpful. Hilarious Postcards!By SassifrassGreat find! Going to send these funny postcards to someone in jail.

About the AuthorAndy Riley is a scriptwriter for television and film. His credits include Trigger Happy TV, Smack the Pony, Black Books, the British Academy of Film and Television Arts award-winning Robbie the Reindeer, and the new Disney animated film Gnomeo and Juliet—with a score by Tim Rice and Elton John. He draws a weekly comic

strip called "Roasted" for The Observer magazine.
