Deborah Muller : Burlesque Mermaids Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Burlesque Mermaids Coloring Book:

0 of 0 people found the following review helpful. Very risqué coloring book, please read this post before purchasing this book!By Phoenix teacherAbout half of the mermaids in this book are wearing some type of pasty and not much more over there chest. I am giving it two stars because of the number of mermaids wearing only pasties. I have made a "coffee table" book out of my coloring pages. I would be embarrassed to put the mermaids wearing the pasties in my coffee table book. In my opinion, it would be embarrassing for adults or children to see my book with these nearly topless mermaids in it. I also purchased the Ooh La La Sexy Mermaid Coloring Book by Deborah Mueller. I love almost all of the pictures in that book. This book is much more risqué than the Ooh La La Sexy Mermaid coloring book. I am a huge fan of Deborah Mueller. I have about 20 of her coloring books and I absolutely love them all, except for this one. I gave it two stars instead of one star only because about half of the mermaids in the Burlesque Mermaid

coloring book are to some extent "reasonably" covered, and therefore it is not a total loss. I will continue to buy Deborah Mueller's coloring books in the future, as this is the only problem I have had with any of the 20 or so coloring books by her that I own. Hopefully this will not happen again. 5 of 6 people found the following review helpful. Adorable Fun!!! By Customer I already had this book, but purchased another! I have so many of Deborah Muller's books that I can forever be coloring her wonderful art! And I buy more every time I see something new! These are my favorite kind of coloring books! Burlesque and mermaids? How could you possibly go wrong?!? I don't have a page colored yet to share, but if I'm able to update my review later with a picture I will. If you enjoy fun and quirky, you'll LOVE this book!!! :-)
