The customs, speech patterns and values are very small town Southern.I love it. I grew up in Texas. And a good portion of what Ms Herlong describes are things very familiar.She writes about life growing up in a small town atmosphere. Everyone knows everyone, and she was

related to a good number of the neighbors. She loves the people and the place and the time. That love comes through to the reader. We learn about her family and the things her Mother taught her. And the things that her second Mother, Tootie, taught her are included. And what she learned from competing for Miss America. She shares what she has learned giving inspirational talks to groups all over the south. From those groups she has gathered friends who appreciate what she says. There is humor in her stories. She also tells us stories which illustrate Christian ethics. We are reminded how to treat one another and how to love one another. Even when someone is not lovable, we need to love them, for our own good. In fact most of this book is about learning what is for our own good. We can find peace and happiness in the simple things. These are things like family and laughter and love. The book is difficult to describe other than a memoir which brings the reader into warmth and comfort. Ms Herlong is aware of her strength and her weakness and she shares both with the reader. I recommend this book to anyone who wants a read which is particularly good at Christmas time but would be entertaining at anytime. 1 of 1 people found the following review helpful.

Winner By Deb Stewart Williams A great book of humorous life lessons by a southern pageant queen who really knows her pearls. I read it in one sitting, on the two year anniversary of my beloved mother's passing. There were so many things in this book that resonated with me. I don't know you, Jane, but I could almost be you. Thank you for writing this. 1 of 1 people found the following review helpful. GOOD BOOK By Kindle Customer Not what I expected...so much more! Lots of good advice from birth to death. You'll laugh, cry and rejoice. I would recommend this book to every age but should be the go-to book for every Christian couple who wants to bring your children up in the way the Bible teaches

Christian Small Publisher Book of the Year Award - Gold Medal Winner, Illumination Book Awards Enjoy this real-life, roller-coaster ride of laughter, tears, and stomach-churning truths by a Southern professional speaker, humorist, and singer who, as Miss South Carolina, represented her state in the Miss America pageant and has been singing, speaking, and writing ever since. Incorporating the analogy of pearls, this inspirational book uses humor and spiritual principles to bravely address difficult issues many in her audiences encounter within changing roles, self-actualization, and families. Bury Me with My Pearls is funny and motivational, addressing the importance of how to guard the countless gifts given by our Lord and that doing the right thing is the right thing regardless of our feelings or circumstances. This personal development book is about trusting God in all things and how he can turn our irritants into pearls. Bury Me with My Pearls encourages us to develop our pearls, protect our jewels, carefully wear them next to our hearts, and share with others. As a speaker and author, Jane shares this with a good splash of humor. Explore how to walk in love while pruning the family tree in an environment filled with difficult people. See how God's power is released when learning to trust Him, to embrace the lessons being taught, and to grow spiritually no matter how painful. Like the process of the pearl, so many women need to find and embrace their buried treasures. The author is a CPAE Hall of Fame Speaker
