It has one image per page, not front and back, so no worries about markers bleeding thru and ruining another image. I love that there are a couple of pages at the front to test your colors on. The book has awesome images and sayings. The images vary significantly so there really is something for everyone. I've included some sample images from the book to get an idea of what is inside. Amazing book for anyone who loves to color at a super reasonable price. Great gift idea. I'm buying a couple more for friends now that I've seen the inside. Only thing that could make it better is if it were spiral bound, but that's just my preference.309 of 318 people found the following review helpful. Suitable for framingBy Hannah HaasBetter than expected. Many of these will end up framed once colored (and maybe even given as gifts!).196 of 201 people found
