Not exactly what I expected but was a great laughBy Bulltish ReviewsI honestly bought this book in a stupid moment of thinking I could get rid of these filthy, disease carrying flying rats out front of my place....WHAT I got was a book with a heap of funny photographs on how to kill flying rats..We had a laugh about it, now it sits on the shelf so i can tell all my friends the funny story when they visit..Yes, the flying rats are still outside.....but they will have their day.....0 of 0 people found the following review helpful. Five StarsBy Debby BHilarious.12 of 13 people found the following review helpful. Don't Take Everything So Seriously! It's Art!By Gina M. GlennThis is a bizarre, fun, crazy, mind-bending collection of artwork. If you love animals: don't worry! I do too! I'm a vegetarian, I love birds, I would never wish harm upon any living creature. But this book is not to be taken literally! Aesthetically interesting, never dull, and always a great conversation piece. If you find the theme unsettling, you haven't done your research. This is NOT a book instructing or condoning the killing of ANYTHING...in fact, a large number of the "killing methods" provided would be impossible, expensive, or illgal to carry out.If you possess a slightly macabre sense of humor, or simply delight in oddball 'what-if' topics, this is the book for you. It has given me hours of entertainment and I believe that I have a greater respect for pigeons having explored this book.

No one is certain when pigeon-loathing began, but the anti-pigeon phenomenon has by now insinuated itself into every medium of popular culture. Whether in film, television, music, or advertising, pigeon eradication has become an accepted way to tug at a person's funny bone. With *Canceled Flight: 101 Tried True Pigeon Killin' Methods*, A.V. Jones has created an Anarchist Cookbook of comic relief for the worldwide pigeon-hating population. Conjured from Jones' twisted brain, 101 surefire methods for speeding a pigeon's journey to the grave are laid out for even the novice pigeon-despiser with lists of required materials and step-by-step guidelines. Every method has been brilliantly illustrated with the help of more than eighty-five of today's hottest street-inspired painters, illustrators, designers, and photographers. Whether visualized in the pre- or post-death stages or at termination, each piece faithfully represents Jones' methodology with incredible energy and originality: In "The Butcher," a Dalek Space Monkey picks up a cleaver to "chop, chop, chop till he can't chop no more," and Cody Hudson's "The Permanent Press" illustrates how two scorching hot irons can make a toasty pigeon sandwich in no time flat. An exhaustive compilation of execution, *Canceled Flight* is sure to provide the pigeon-killing technique perfect for you.

About the AuthorAs founder and president of PUTP (People for the Unethical Treatment of Pigeons) A.V. Jones is recognized as the world's foremost expert on the subject of pigeon killing. In addition to delivering keynote addresses at the past five International Summits on Pigeon Population Control, he has advised numerous government officials, from a small town in Texas to major metropolitan centers, including New York, San Francisco, Venice, London and New Delhi. He has written more than one hundred articles for publications as varied as *Target Practice*, *The American Journal of Pigeon Poisoning*, *Empty Nest*, *Taxidermy Art*, and *Morior Columba Livia, Morior (Die Pigeon, Die)*. Jones currently resides in New York City.
