**From ECW Press : Carry On Bumping** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Carry On Bumping:

A fresh group of writers, critics, booksellers, poets and novelists to heap scorn and vilification on Canadian icons such as Margaret Atwood, stuffy academics, feminist poets, Elspeth Cameron, contemporary literary theory, and The

Canada Council. Contributors include Hugh Hood, Louis Dudek, William Hoffer, Brian Fawcett, Robin Skelton, Maggie Helwig, and Winslow L.D. Howard (who?). Vitriol, humour, and cynicism march together against the shibboleths of Canadian culture. All edited by John Metcalf, Canada's pre-eminent curmudgeon.
