I know this from having overall about 20 kitties in my life....even in boarding school I managed to get a cat into my room and feed him and care for his potty needs.The cook knew and

told me, I think she said, that my little baby could be a successful mouser. My French wasn't that good. But since they got fresh milk every morning fresh from the farm, 9he actually delivered it in a horse drawn cart, yes I AM that old, he had cream and milk and meat every day.....I hated leaving him, but did pass him on to another girl who was homesick and lonely, and told her the cook was on our side and that she had to be consistently careful with the smell. When you love cats, it is hard to go without.2 of 2 people found the following review helpful. Pleasant, light-weight trivia-facts about catsBy LibrarianI found this novelty book as a freebie in the Kindle Store and spent a pleasant half hour reading it. As long as it's free, I would definitely recommend downloading it (and my rating reflects satisfaction at that "price"), but should it ever cease to be free, I would advise downloading a sample first to see if it's something you wouldn't mind paying, perhaps, a dollar for (but definitely no more).Every page/screen has a cartoonish illustration, large-print caption, and a brief (and usually interesting) several-line comment, observation, factlet, or factoid all of which are presented in no particular order or grouping. For instance, we learn what a hair-ball is really called (a "bezoar"), and we are told the name of the first cat launched into space -- but we also are informed that "cats can talk" and "cats do not wear hats." For some reason, however, in these last two instances the author erroneously spells "cats" (plural) with an apostrophe to show possession (as in "cat's can talk.") Possession of what? Doesn't anyone understand the difference between plurals and possessives any more? In a large caption this error is rather jarring. Also, information is repeated and sometimes seems contradictory, such as telling us on one page that cats don't need baths, but a few pages later, advising us to clip their nails before bathing them. Nowhere are sources for any of the information provided. But overall, the book is pleasantly informative and fun to read. I BRIEFLY enjoyed it.ADDENDUM [07/03/15]: Sometime after I wrote the above, the price went from being free to \$.99 and then later jumped to \$2.99; it was certainly NOT a good value at THAT price. Then it became free once again, but shortly returned to \$.99. Then it went back to \$2.99 before becoming \$1.99. Given all these price fluctuations, you may wish to wait and see if it will once again be offered for either \$.99 or free.0 of 0 people found the following review helpful. Okay, but not funny factsBy Ali JuliaI thought this cartoon book was okay. Target audience: elementary school level children who are interested in cats. Each page has a couple of sentences with various facts about cats. I would not describe the information as funny (as the title implies): dogs and cats can be friends, chocolate is bad for cats, and so forth.Ali Julia review
