After a bad beginning, he went to jail and paid for his fraudulent activities from age 16 to 20. Then, he turned around. He began to work with the FBI on revealing fraud. He started his own business and is now a millionaire, helping the FBI, private businesses and people to discover fraud. This is important for the elderly especially and he works with the AARP. He makes presentations sponsored by the AARP in various cities. He talks about his life (now at age 70) and gives good advise to AARP members on avoiding fraud and scams. Anyone can order his books from and gain considerable knowledge for their own good. I was privileged to be at a recent presentation he made in Las Vegas, Nevada. The people just loved him! AND SO DID I! Thank you, , for being a most reliable on-line center for finding what we are looking for.43 of 45 people found the following review helpful. Interesting, but author's biggest Con may be this bookBy PanaMarkThis was hard to rate. It was an interesting read and I liked parts of it, but I was VERY disappointed in the amount of made up stuff in this book. It is supposedly a "True Story", but about 1/2 way through the book I began to realize there is no way some of this stuff happened and I found outright errors (e.g. the U.S. won't extradict any US citizen? Wrong!) By the end I was wondering which parts were true, and that really reduced my enjoyment overall. I Feel Like I was Conned Too. I did some googling and found that Mr. Abagnate even states/admits that many things were exaggerated by the co-writer and he wished that were not done. I believe that there are a lot of things that really

happened in this book, but also a lot of things that are totally made up. (And some obvious sections where the co-author had to go back and write a supplemental paragraph because a logical error was found in the draft. Not a smooth cover job.) Anyway, it would have been great without the made up stuff. Then I wouldn't wonder how much I had been suckered. 0 of 0 people found the following review helpful. A true master of his "craft" By Mr H The book was hard to put down. I found myself wondering how he figured out his cons and admiring him for his boldness. Then I empathized with his loneliness. We have one thing in common, we both come from a broken home and I felt his pain. Truly a great read. I would like to meet Mr Abignale.
