Loved and worshipped, praised and admired, hated and feared: more than any other domesticated creature, cats provoke extremes of feeling, and this Peculiar History title reveals why. Feline fans will love the information on cat origins, cat biology, cats in different cultures, cats as pets, cat characters, and more.

About the Author Fiona Macdonald studied history at Cambridge University and at the University of East Anglia. She has taught in schools and colleges and written numerous books for children and adults.
