I don't even remember what I was searching for but it caught my eye and I'm glad I went for it. I didn't bother to look very closely at the preview on the back, and I don't regret it because it was a RIOT going through the pages the day it arrived. The frakking Golden Girls scene... DEAD. This calendar cracks me TFU! If you *love cats and also happen to *have a fantastic sense of humor, then don't even waste your time browsing countless inferior datebook offerings, this is the one for you.*If neither of these apply to you, then you are what's wrong with the world today and the only business you have owning a calendar is to check off the years until you are released from prison :)0 of 0 people found the following review helpful. Crazy for this CATlendarBy GoldenblossomMy friend and I absolutely LOVED this calendar! Every photo was a gem and the calendar was wellmade enough to last the year. The photos are great quality and ture to the theme so rock your 80's heart out to this CATlendar (totally feel free to use this)2 of 2 people found the following review helpful. ... this for work so my crew would have something fun and cute to look atBy Brandi LynnI bought this for work so my crew would have something fun and cute to look at. Although it is much bigger than the calendars we have bought it in the past. Everyone loves it. I only wish that there were more months in a year for more 1986 cats.

Celebrating cats and the totally awesome 80s, this calendar features images of cats rocking a variety of iconic looks from 1986, from preppy to punk rock and everything in between—big hair, bright colors, leotards, and shoulder pads. With references to the best and worst pop-culture trends in the 80s, this mash-up is sure to entertain all year long.
