I have colored a couple pages in the book itself, but I usually copy the pages onto my preferred stock (Bee paper - Bee Paper Company Super Deluxe Sketch Paper, 9 by 12-Inch, 100 Sheets per Pack), which handles watercolor pencils better. The paper in the book is OK for watercolor, but does ripple a bit.I'm trying to post photos. No luck the first time so I'm trying again!1 of 1 people found the following review helpful. Great work! Fantastic images to color!

A celestial coloring book about a romance between the sun and the moon. Once upon a time, in a sky full of stars, the moon fell in love with the sun. A love story as old as time, told with 60 original drawings and patterns, taking inspiration from illuminated manuscripts, and the skies. Featuring stars, planets, the moon and the sun, drawings are presented full bleed, printed on one side, and with a number of solid black background images so that your coloring really stands out. Designed with the adult coloring hobby in mind, but suitable for all. adult coloring, coloring book, celestial, moon, sun, planets, love story, hearts, romance, valentine
