Robyn Alana Engel : Celibacy and Suburbia before purchasing it in order to gage whether or not it would be worth my time, and all praised Celibacy and Suburbia:

A Three-Part Laugh RiotBy Susan Flett SwiderskiOther than shelving this book under "humorous," it's difficult to characterize it or to lump it with other make-ya-laugh kinda books, because it's... different.The first part of the book lampoons online dating ads, as only this author could do. She not only includes the error-ridden ads as posted by some "unusual" men, but then she dissects those postings with sarcasm, snark and wit.Not your thing, you say? No problem. In the second part of the book, she conducts some

raucous and cheeky pretend interviews with numerous celebrities. Guaranteed to make you laugh. The third part shows an entirely different side to the author's talents. Anyone who has read her other books already knows her poetic side, but THIS poetic side is a teensy bit more... erotic. And funny. Yeah, erotically funny. That's it. Twelve different poems, one for some holiday or another from each month of the year. Irreverent? Uh, yeah. Sometimes. Sexy? Check. Funny? You betcha. All-in-all, this diminutive gal... all four foot eight inches of her... has proven once again that good things come in small packages. That's definitely true when it comes to her talent. 1 of 1 people found the following review helpful. Engel is wickedly funny and a sharp writing talent. By Joanne L. Faries. Dip your hand in a bowl of chocolate candies, drink a hot chocolate, and settle in for giggles, chortles, and outright guffaws as you read *Celibacy and Suburbia*. Dating is not for the feint of heart, and the author proves it time and again with her rejoinders to dating ads. Oh my. Part II - her mock celebrity interviews are hilarious. And finally, Part III - *Calenderotica* will make you eager to for certain months to arrive. Robyn A. Engel is wickedly funny and a sharp writing talent. 1 of 1 people found the following review helpful. "*Celibacy and Suburbia*" is a fantastic read which makes me feel real good about myself. By Ken Lynch. Make sure you're sitting down and alone when you read this. Unprovoked guffaws, solid streams of milk pouring from your nose, tears of mirth, and little nasal snot bubbles may get you shunned. Or, it may not. But, I wouldn't frequent that kind of establishment. "*Celibacy and Suburbia*" is a fantastic read which makes me feel real good about myself. And, it should be noted, may Aaron Spelling rest in peace.

This hilariously quirky threesome contains 250 unforgettable dating ads with biting commentary; parody celebrity interviews; and one-of-a-kind, holiday-themed poetic erotica. Editor and Writer Janie Goltz describes it as "the G-spot of hilarity." Warning: Not for the tightly wrapped (e.g., Martha Stewart) or those lacking a sense of humor (e.g., Martha Stewart). Were he available for comment, Donald Trump would have said that Author Engel represents everything that's wrong with America. And "I'm so good looking."
