Phoenix Amulet : Chuppy Art: Adult Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Chuppy Art: Adult Coloring Book:

1 of 1 people found the following review helpful. It's on reasonably good paper, with a little texture feel to itBy ~Shawn~I've recently become a fan of Chuppy Lim's. He's creative, and talented. I adore this book. I have yet to color in it, but I've looked at it a few times, and checked the paper out. It's on reasonably good paper, with a little texture feel to it, I think will work great with pencils and pens. So much variety in this book. Printed on one side. Easy to open and press the book down to color in. Thank you Chuppy!2 of 2 people found the following review helpful. I love this bookBy PaulaI love this book. The variety will guaranty that you will not be bored!!! The pictures are one to a page but the pages are not perforated. Since I prefer to color on a flat surface, I took the book apart which was easily done. That also allowed me to use markers that would bleed through and also to apply pressure to my pencils which is my habit. Chuppy's art is fun and it's beautiful!0 of 0 people found the following review helpful. A great book to add to

your collection. By Purpulrain This is a wonderful coloring book to add to any collection. Chuppy's art is unique and whimsical. Everything from insects, animals, and people are available to color in this book. It will provide you with hours of coloring relaxation. I should mention that the images are printed on bright white, non-perforated, medium weight paper. I found the paper more suitable for colored pencils. You could use markers but I'd highly recommend placing a sheet or two of heavy stock paper behind the page you are working on to prevent bleed through to the next image.

After Zenimals coloring book, Chuppy Art is the new collection of artworks drawn by talented artist Chuppy Lim featuring 30 unique illustrations .
