**James C. Humes : Classic Podium Humor** before purchasing it in order to gage whether or not it would be worth my time, and all praised Classic Podium Humor:

2 of 2 people found the following review helpful. Classic Podium HumorBy WmThe author of this book is 'right on' in terms how to use humor in talks and in preparing talks and/or speeches.2 of 2 people found the following review helpful. A valuable book for public speakers.By Jerome R. DodsonHumes gives many good anecdotes that will liven up your speeches. Most helpful is his first chapter devoted to delivery of a good story. The book does suffer from a few weaknesses, however. Some of the illustrations are dated by their references to historical figures that many modern day hearers wouldn't be familiar with. The other problem I had with the book is that more than a few of the stories were off-color or suggestive--I can't use them in a sermon, and don't find them funny anyway. Still, in terms of the number of illustrations that are appropriate and useful, this book is head and shoulders above some "pulpit illustration" books I have purchased (Tony Evans and Chuck Swindoll come instantly to mind.) I would encourage any public speaker to buy this one!0 of 1 people found the following review helpful. Incomplete Description of BookBy Robert L. BuckhamExtremely disappointed in this purchase. Book was word-for-word copy of paperback version [More Podium Humor] issued in 1993. Only the title was changed. Duplication not discernable from description. Credit received, but a complete waste of time.

giving funny speeches
