Linda Hackler : Clueless In Kansas before purchasing it in order to gage whether or not it would be worth my time, and all praised Clueless In Kansas:

Clueless in Kansas gives us exactly what the title implies: lively, entertaining, home-spun humor where the struggles of daily life become a comedy of errors. It is a view of life as seen through the bright light of laughter and is the perfect antidote for the stress of today's fast-paced world.

Linda Hackler has a unique way of bringing out the lighter side of most any situation. In fact many of those described in *Clueless in Kansas the Book* are first-hand experiences. Linda has been writing for the Colby Free Press, a daily recorder of people and events of northwest Kansas, for several years. She was a favorite from day one. Her following has grown consistently and her column is often mentioned as the best read in the newspaper. One never knows what she has up her sleeve each week, but readers have come to expect the best in hometown humor and they are never disappointed. She has an understandable family. And relatives. And friends. You can almost feel the explosive humor-laced passion that drives her kinfolk to laugh at themselves. Regardless of where you live, you feel like Linda is talking about you. Sit back. Relax. Enjoy one of northwest Kansas' best humorists. -- Tom Dreiling, Publisher, Colby Free Press

About the Author Linda Hackler is the quintessential middle aged female. She, and husband Bill, raised their two children in the small rural community of Bogue, Kansas. As a forty-three year old grandmother, she decided to join her husband as co-driver of an eighteen wheeler. Trucking was not the life for her and two years later she climbed out of the big rig for good. (Much to Bill's relief!) Hackler's life is like millions of others. She works two part time jobs, as well as writing a weekly newspaper column. The glamor of fame and fortune has never found its way to the Hackler household. But, love and laughter are always on hand. Who could ask for more?
