So cute and I love Cockatiels too. But I'm also a realist. By Lincoln County MT Cats are my foremost love in the kingdom of critters all fuzzy. And Cockatiels are my favorite bird so this review is in memory of Charley a beautiful white cockatiel....if these people who have given this book 1 star based on the covers drawing.....perhaps they would feel better if they thought about all the kittens and small creatures who might harm the rare cockatiel was seen being carried off by an owl. We used to freak when we'd suddenly notice shadows flashing past our curtained windows around dusk near Bozeman MT and go...oh no...where is Felina? Our newest young cat/kitten....she was a wild one and sure enough you'd open the door and run out to save her just in the nick of time...she didn't understand that the owls swooping down to her weren't playing with her...they meant her as the meal...and she was all in play. She lived many years and I gave gifted her to my brother who's lives were enriched they tell me because of this beautiful cat. Yes she caught things wild in the night...and never herself was caught that we knew of...but they were most surprised one night when it was warm so window without screen was left open and Felina brought into their bed a live Lease Weasel.....they spent the next couple of hours trying to catch the gift in hopes to set it free unharmed. I suspect Felina was just ROTFLOL the whole time. Animals are animals....people need to

remember that. We choose not to set up bird feeders despite the fad because it disrupts the normal flow of things for not just bird life but bears coons etc. And when not once but at least 5 times relatives and friends have contacted us to ask what they can do to prevent the owl or the hawks from eating their cherished song birds at their yard feeder. Our answer usually is....that's just one reason we don't set up feeding stations...it attracts the birds of prey too. Humor trumps it all....and even the animals may snicker and chuckle and who's to say they aren't laughing loudest at those who give 1~star reviews for books they do not even read let alone own. Sensitive souls perhaps. Insensitive cartoonist probably not. 8 of 8 people found the following review helpful. Hysterically funny! Great Gift Book!!!! By Kathy Another triumph for beloved NEW YORKER MAGAZINE cartoonist, Leo Cullum. Each witty, well drawn cartoon is a humorous take on the human condition...not an attack on cockatiels....lighten up people. It's a book of humor!!! A perfect mate to his previous cartoon books. SCOTCH and TOILET WATER, TEQUILA MOCKINGBIRD and COCKATIELS for TWO make the perfect trilogy for gift giving! Even the titles are so clever. Funny One

A collection of 113 whimsical cartoon illustrations by the New Yorker artist explores the idiosyncrasies of feline behavior, from a cat who comments to a companion, "I'm totally bipartisan. I eat as many birds as I do mice," and another who philosophizes, "I purr therefore I am." By the author of Scotch and Toilet Water. 35,000 first printing.
