**Jeff Nicholson : Colonia Volume 2: On Into The Great Lands (v. 2)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Colonia Volume 2: On Into The Great Lands (v. 2):

Picking up where their island hopping adventures left off, Jack and company go inland, where they discover (what may or may not be) a fountain of youth, a lost Seminole empire, Rip Van Winkle, and Teela the mermaid as a

barmaid. The volume concludes with a new ship and a showdown with the notorious pirate Smokebeard.
