1 of 1 people found the following review helpful. Very detailed By C. Courter I purchased the Royal Engraving Foil Brush set with this after reading some of the reviews. My experience is with using those, not the added wooden one. Overall, this is very detailed. And a unique concept. This is nothing like the scratch offs I had as a kid, with the bright rainbow colors underneath. This has what appears to be metallic colors, at least on top of first page. Again, it's very detailed. I am legally blind (20/300 in best eye), and can do this using a magnifying glass. 0 of 0 people found the following review helpful. Relaxing and creative By Courtney Some minor scratches on some of the designs from

shipping but I guess that is to be expected. Most I was able to work into the design and they turned out beautiful!0 of 0 people found the following review helpful. Fun but messyBy breezefromcaSmaller than I expected but cute. Not really sure why I thought I could do this at work during my down times. It is very messy but still a cute idea!
