Poorly printed cat-themed book By Melyssa Kellie I bought this one based on written reviews and a few example images but once it arrived, I didn't care for it at all. The picture quality just isn't very good- "large print" seems to mean they just blew up other photos but they sacrificed quality for image size and the images STILL didn't fill the entire page. Since I didn't color anything and returned this to immediately, I can't add more information but I'd suggest choosing something else. 1 of 1 people found the following review helpful. Nice designs By lsal mom My 13 year old daughter loves to color but hates coloring meaningless shapes. She likes the design of these cats. She is very particular and takes a lot of time when she colors and these are pretty and not too detailed. 0 of 0 people found the following review helpful.
