Larry the croc couldn't get funnier!By Wandering boyThe only sad part about this book (and it's not weepy sad) is that the whole book isn't about Larry and Bob and crew. I swear Pastis has been in my old neighborhood and followed my former neighbors around, then made them into crocs and gave them names! You have to love Larry and the boys. Although, I'm partial to Rat and Pig, I find the crocs to be extremely funny. Another great collection of the PBS crew. If you've never read PBS, this is a great starting point to meet the entire cast. I'm not sure there is any other cartoonist that can capture the moment with the facial expressions like Pastis does with Rat, Pig, Goat, Larry and all the other charaters that flow through PBS.Wonderful strips!9 of 9 people found the following review helpful. I Love "Pearls"By Roger FarnhamStephan Pastis has to be one of the most creative and off-the-wall cartoonists since Gary Larson and his "Far Side" cartoons. This is a new collection of what I think is some of the best Pearls cartoons he has published. I always look forward to the release of a new book and this one does not disappoint. Just settle back and laugh.0 of 0 people found the following review helpful. More black humor from the animal kingdomBy Kindle CustomerI have been informed that Pearls is an acquired taste, which I am fortunate enough to have acquired.Between the elaborate puns and very decided personalities of the characters, I am a

devoted fan and own several of the collections, which are frequently reread. My introduction to this strip was when Pig's front yard nativity had been stolen and he was going door to door to his neighbors, asking them if they had found Jesus. How can anyone not find that funny? Pig's cheerful cluelessness, Rat's nastiness, Goat's all too wise frustration, as well as the stupidity of the male Crocodiles in their many aborted plans to eat Zebra. What's not to love?

One of the best-selling cartoons today. Offering blistering commentary on hot-button topics related to recent news events, popular culture, cartoon-page contemporaries, and more, Pearls Before Swine expertly illustrates the flaws and shortcomings of human nature through Pastis's mindful menagerie of fiery and feisty characters. Stephan Pastis offers Pearls Before Swine fans a visit to the other side of the looking glass with his latest collection, Larry in Wonderland. Collecting almost a year's worth of strips, Larry in Wonderland offers cutting-edge commentary on recent news events, popular culture, and cartoon-page contemporaries, and imparts the knowledge that in Wonderland, crocodiles taste a lot like chicken. Through Pastis's mindful menagerie of characters, including the Mad Ducker, Cheshire Snuffles, Tweedledum Pig, and Tweedledee Idiot Pig, along with Raterpillar, Zebra, and Larry the Croc, Pearls Before Swine expertly illustrates the flaws and shortcomings of human nature, while remaining "indifferent" to conventional cartoon molds such as plotline "continuity." In the words of Raterpillar, "Plotline schmotline." With multiple honors as Best Comic Strip of the Year by the National Cartoonists Society, and an international fan base that follows the strip's appearance in more than 600 newspapers worldwide, Pearls Before Swine transports readers to a world of shifting perspectives and alternate realities, like the one presented inside Larry in Wonderland.
