Great entertainment a quick read for the whole family!0 of 0 people found the following review helpful. Very Entertaining!By cpet660This was a very entertaining collection of Late Notes. Makes the perfect gift, or stocking stuffer, for your own students (especially those that have a tuff time making it to school on time). I love the creativity of each note and the illustrations compliment the stories well. I would recommend this book for your favorite school secretaries too!

In high school I was constantly late for school. It was never my fault. These first 30 excuses are the notes I gave the secretary in the front office of Seton Catholic High School explaining why I was late. She saved them and gave them to me at the end of my senior year and told me to write a book. So, I did.
