LOVE IT!By smokey rainThis is a must have for every serious gelotology student. Dr. Moody is intelligent, loving, inspiring and fun! I am fortunate to have run across this out of print book.0 of 2 people found the following review helpful. Bad condition, not funny either.By chesta drakeThe book took a very long time to arrive. It was not in good condition at all, which was disappointing because I had intended to use it as a gift. Obviously I did not. Usually I can rely on seller descriptions from but not this time.

A book about the medical implications and uses of laughter and the sense of humor as they bear upon questions of health and disease.
