1 of 1 people found the following review helpful. Great Book well writtenBy R SridharGave 5 stars simply because it was nicely written. The concepts flowed freely and for the first time I could understand the anatomy (at least part of it) of creating laughter and being funny. Very useful books. Few more examples would have certainly helped though.0 of 0 people found the following review helpful. Must readBy wendyreidExcellent book. Excellent author. It's an ok start and it's cheap.By Rubin IssacSome basic examples of jokes. Useful starting place to have an idea of the types of jokes you can make in conversation. The examples given of each type are horrendous but they are just examples.
