**Galen Winter : *Legendary Northwoods Animals: A Field Guide*** before purchasing it in order to gage whether or not it would be worth my time, and all praised *Legendary Northwoods Animals: A Field Guide*:

Long-time northwoods story teller humorist Galen Winter, himself a bit of a woodsy legend, provides undeniable proof of rockworms, octodogs, splintercats, the lumberjack parrot, the polar pike, the giant mantis, the hoop snake, 17 other fabled creatures in this detailed 'natural history.' Northwoods artist John Boettcher, the only living person ever to have seen, in a lifetime of northwoods experiences, each of these beasts, renders further visual proof of their reality through unique lifelike scratchboard illustrations. Roll over, Charles Darwin: This daring book will shake the staid temple of evolutionary science to its very foundation!
