Another Great Book From the Dynamic Duo!By BarryfaceThis is the third book by these two authors and I bought it for my primary doctor for his birthday last month. He already had the previous two and really enjoyed them. I couldn't help reading a few pages on this one and found them very funny. I hope the authors will be publishing another one this year or next.1 of 1 people found the following review helpful. A fun bathroom or flight book primarily "for guys"By RextrentEntertaining stuff for quick-reading and geared towards the male mindset.Super for leaving by the toilet or bringing along on a flight.The kind of book you can read snippets of while riding in a car or waiting for the dentist.Includes crude sexual language and material.It's great if you like this kind of thing. I like it.
