Withrow This is the first time I have ever seen a color book with inspirations and designs to warm the heart. I myself like to draw and doodle. I am not drawing to impress, turn a profit, or for anybody other than myself. In the past, I used to draw for certain people for gifts. When I gave these gifts they were from the heart and soul. In which I mean each picture color and thought was a part of myself. I discovered when I gave these gifts many people would take them and years later I would find them in the garbage. This was a time, I realized for me it was best to draw or paint for myself or somebody who understood me. It's a wonderful way for self expression and

helps to create a way for releasing tension and other psychological issues. I think these color books are very nice to help release untapped talent, and maybe understand yourself better with little words of inspiration to move you along. So pick up your pen and allow yourself to soar. Either keep for yourself or give to that special person. I truly believe these books help many people psychologically as well as physically. Perhaps, you'll be surprised in more ways than one. Great job to the artist for the pictures and idea of something that can touch so many people. 1 of 1 people found the following review helpful. Coloring is fun, calming and taps into one's creativity By D. Jenks This was a gift for my elderly mother. She is loving this new pastime so much, she just bought a 72-pack of colored pencils! Twelve colors were not enough. Coloring is fun, calming and taps into one's creativity! This is a large print book which makes it easier for my mother to enjoy. 0 of 0 people found the following review helpful. Five Stars By peachesncream Large print is great for someone who has poor eyesight. Nice pic too

Let Your Dreams Take Flight has been designed with larger print and larger designs. Over 30 Single Page Illustrations are included with Inspirational Quotes to bring a Smile and Joy to the creative colorist. Each page is followed by a test and doodle page to prevent bleed through if using markers-watercolors or pens and to be used to Blend colors before applying to the page. There is also a Note area to Journal about your day or work on the piece you are creating.
