Jenny McCarthy : Life Laughs: The Naked Truth about Motherhood, Marriage, and Moving On before purchasing it in order to gage whether or not it would be worth my time, and all praised Life Laughs: The Naked Truth about Motherhood, Marriage, and Moving On:

3 of 3 people found the following review helpful. Don't Waste MoneyBy Lori TAlthough I'm a huge fan of Jenny

McCarthy's books, this one was disappointing. It seemed as though she had completely random thoughts that she threw into a new book. Nothing fits I couldn't relate to anything in this book. Belly Laughs Baby Laughs are great though.0 of 0 people found the following review helpful. Keeps Getting Better....By Melony MenocalThis is the third book of Jenny's that I've read and I still loved it! This book was great! It still has the same humor and laugh out loud moments but it's interesting to hear her views on other topics other than motherhood, In it she talks about the struggles with her marriage falling apart, the beginning stages of autism, and getting back in the dating world. I always look forward to McCarthy's books...and I haven't been disappointed yet.0 of 0 people found the following review helpful. HILARIOUS!!!By Mallory R. BarrettJenny McCarthy is raw, funny, blunt and quite frankly, dirty. She reveals it all in this light, funny book. From relationships and dating to cooking mishaps and zits, she exposes herself as a normal woman working to be a mom, a wife, and an individual at the same time. It will literally have you laughing out loud (don't spill your wine) as she describes her life and how funny the little things can be.

Jenny McCarthy, New York Times bestselling author of Baby Laughs and Belly Laughs, speaks candidly about the challenges and the humor to be found in balancing motherhood and the ups and downs of marriage. Jenny McCarthy's honesty has made her a bestseller. In Life Laughs, Jenny opens up about all of the things no one told you before you got married and had kids. Of course there's plenty of Jenny's outrageous humor, but she also writes openly and for the first time about doing your best when marriage falters and about her own divorce, which made headlines when it was announced in the summer of 2005. Jenny doesn't pretend to be an expert in her books; she is instead something more valuable—a good girlfriend. Catch Jenny's take on growing older, finances, PMS, sex, dating . . . and again, mommyhood. Jenny McCarthy is a trusted, brand-name, bestselling author, and Life Laughs is poised to be her biggest book yet.
