designs!! The other, run-of-the-mill, adult colouring books I frequently see for purchase are too busy and troublesome, for my liking. Also find the diversity of the pages in the book refreshing; this allows the user to select the ideal page based on their daily mood. All in all, I highly recommend this book if you're truly looking to channel inner peace and tranquility. (Shellie Duiker)0 of 0 people found the following review helpful. Best one yet in the SeriesBy Pearl BuckAs a follower of the series, I think this one, Life Lessons is the best of the bunch. Soul grabbing gems of inspirations that bring up tears, joy, understanding and of course, common sense. thank you for this unique work, a journal, colouring book and inspirations all in one!

Turning 60 was Aunti Patricia's biggest shock. "You're an old woman," she said to herself. "I am NOT!" she replied. Patricia Ogilvie writes through AuntiSays and this 4th inspirational coloring book for adults is one of her best work. She shares her life experiences with her sister and for all the wonderful women out there. This Please God purse sized coloring book for adults was born out of her creativity and experience from the last 6 decades. The combination of the coloring book craze and her best life advice shines through. These gems you are about to hold in your hands touch the soul. It has bold and wild life lessons; some learned by accident; some by reading; all by living them. A couple of pages could rub you strong. . . oh yeah. Enjoy..
