I gifted this to my 13 year old niece who says she doesn't "color" any more because most coloring books are for kids (not teenagers like herself). She loved the intricate drawings and is planning on framing a couple for her bedroom wall.2 of 2 people found the following review helpful. and she loved it! a great gift. My fiancée says she likes it so much that she's going to buy a few more for her family and friends for the holidays. 1 of 1 people found the following review helpful. Perfect coloring book By Customer Perfect coloring book! Great unique drawings with variation of complexity/simplicity. Most coloring books I get tired of or cannot manage to even finish one page, these pictures are perfect. The book has a great woodland theme with favorites of cacti, deer, crystals, and flowers. Really a wonderful coloring book - if you're looking for one or knows a friend/family member who loves coloring this is the perfect gift!
