PennJudging by the cover, LIGHTS, CUBICLE, ACTION! appears to be yet another Dilbertesque comic book making light of the corporate world. Appearances in this case would be very deceiving. A quick perusal of its pages reveals the truth behind corporate rhetoric, unvarnished by any gloss or glamour. Instead, the wisdom offered is hard hitting, intensely critical and remarkable insightful. Indeed, its rather scathing evaluation of the cubicle reveals the harsh truths of cubicle dwelling that your boss would like you to forget.A.A. Cantor captures the brutal heart of corporate America in every page. Occasionally amusing, always astute, each page deftly reveals the ruthlessness of business and the keys to survival. Moreover, LIGHTS, CUBICLE, ACTION! offers far more than the cheesy optimism of teamwork and chasing the cheese characteristic of most books within this genre. A must read for all cubicle dwellers, LIGHTS, CUBICLE, ACTION! comes very highly recommended.0 of 0 people found the following review helpful. Surviving the perils of working for large corporationsBy Midwest Book ReviewLights, Cubicle, Action!: 100+ Directives For Survival In Corporate America is a collection of sound tips and insights by A. A. Cantor into surviving the perils of working for large corporations. Each insightful revelation or sage piece of advice is enhanced with a brief, no-nonsense explanation. From "Employees would rather read a blatant lie than hear incontrovertible truth."; to "Succeed at what you dislike and you will be forever condemned to it."; to "Success breeds success - but a great deal more contempt.", these memorable vignettes offer a true window of perception into the often twisted maze of office politics.0 of 0 people found the following review helpful. Dilbert Watch Out!By Joe HellerWow, what a great book. Easy to read, and a book that everyone can relate to. Lights! captures situations in a perspective where we can easily laugh at ourselves. It's definitely going to give Dilbert a run for his money, and maybe Tom Peters will use it for some new material.Great job Tony!

Lights! is the first in a series of three books shining truth on life's fiction. The book captures the essence of corporate reality with a humorous yet insightful display of original business "anti-quotes." Lights, Cubicle, Action! is a cutting edge work that propels readers past the typical motivational hype and hoopla. No other self-help/business book would boldly state, "People who work really really hard are often viewed as underachievers." or "The more you say 'no' the more others will do for you." The quotes delve into every area of business: job satisfaction, money, processes, excellence, power, ideas, and success, and leave no corporate stone unturned. Each quote is accompanied by an entertaining paragraph that drives the point of the quote home for the reader. Lights! strips the gloss off of life's ideologies and entertains the reader with a truth so often thought but rarely discussed. The "anti-quotes" in Lights! are biting, sticky, and dead-on accurate, the quotes are funny and, even better, are ALL completely original.

"There is a lot of good wisdom in this book." -- Jack Canfield, Co-Author, Chicken Soup for the Soul(R) and The Power of Focus
Lights! sets the REAL corporate record straight. It's hysterical. -- Doug Williams, Kaige Technology
