**Matt Groening : Lisa Simpson's Guide to Geek Chic (The Vault of Simpsonology™)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lisa Simpson's Guide to Geek Chic (The Vault of Simpsonology™):

1 of 1 people found the following review helpful. I'm not sure if it will save a tree, but it's sure a lot of fun! By D. McDermott More than a cleverly-written book, it's a veritable cornucopia of fold-outs, add-ins, flaps, maps, and even STICKERS! 1 of 1 people found the following review helpful. Five Stars By James D. Hill great!

In Lisa Simpson's Guide to Geek Chic, Springfield's most sensitive student reveals the secrets of being a misunderstood geek goddess. The geeks have inherited the earth . . . And Springfield's most outspoken and overlooked middle child, Lisa Simpson, is here to tell you why! So what does it matter that you don't run with the popular crowd? You control the trends and tastes of popular culture. Who cares if you aren't part of a clique? Your idiosyncratic style is now *très chic*. So what if you're not very social? You're tech savvy drives all social media. There's no need to lay low in nerd anonymity. You are the smartest person in the room, and it's time to fulfill your dork destiny! Praise for the other titles in The Vault of Simpsonology series: This book is a lot of fun... Fans of The Simpsons will

love it, and theres a lot here that has clearly taken time to produce. A good way to spent an hour or so, which left me with a big smile on my face after reading it. It is indeed, as one of the Burnsisms therein attests, the Cats Pajamas, the elephants eyebrows, the eels hips, the bees knees and gnats whistle!"SFF World
