I don't know if Sophia is a real witch or not. It would hard for me to imagine her as one after reading this book. It's fluff. Offensive, unethical fluff. Worse yet, Christians in my community are holding this book against real witches and Wiccans as a perfect example of how we are "casting evil spells" on them. This book is a huge set back for those who follow the Goddess. I would never ever cast a spell for someone else without asking permission first, and only then if it were for healing or very positive purposes. To leave a book on your desk to make your co-workers nervous would be unethical for most witches and just serves to reinforce faulty, scary ideas about witchcraft. Witchcraft is not about revenge or hokey Hollywood powers but about getting in touch with Deity through nature. If this author really is a witch, then she has sold out her sisters' cause, in my opinion, for commercial gain. I find that heinous.5 of 7 people found the following review helpful. Office spells is a HOOT-fundie Wiccans, chill out!By GlainI love office spells!It is clever, hilarious and full of actually very useful and fun spells....that WORK!I noticed another reviewer, a fellow Wiccan (yes, I am- really) is bent out of shape by this-sounds pretty puritanical to me! To me, magic is fun and free- like this excellent book- worried about what others think? Avoid ALL magic then!I highly recommend this book!...Glain4 of 7 people found the following review helpful.
