I was not laughing because they intended the author to laugh. I was actually laughing because of how terribly this book was written and that it was ever published at all.The ONLY reason I got this book is because I love the Real Housewives of New York City, and I enjoyed Alex McCord's presence on the show.Some of the stories in this book are really adorable, but most of them are strange and awkward. It starts to become less of a tell-all, and more of a "how-shocking-can-we-make-this" book.Kudos to Alex and Simon, though; they're laughing all the way to the bank.1 of 1 people found the following review helpful. Not to be taken seriously...obviously.By H.

ColemanHaving watched the show the entire time she was on it, I was a tad skeptical reading a parenting book written by them. Their children act atrocious on the show but to hear them talk in the book, they aren't "that bad". Their take on parenting isn't realistic for the average person, let alone the average New Yorker. So really, this is a quick, not to be taken seriously book that you can read in literally one sitting :D13 of 13 people found the following review helpful. Entertaining and Heartwarming Story of an NYC FamilyBy AdobeCafeI don't have kids nor do I live in NYC (although I do like to visit when I can - so many of the descriptions are familiar) - I loved reading this book. Alex and Simon tell an honest, humorous and heartwarming story of their lives in Brooklyn with two energetic and growing boys. I recommend this book even if you don't have kids as it is an entertaining read. Love that I was able to download it on Kindle too! As Bravo's Andy would say, "Mazel!"

Stars of Bravo TV's The Real Housewives of New York City, Alex McCord and Simon van Kempen, have a hit show and a great book, Little Kids, Big City, a lighthearted and critically acclaimed he-said, she-said rant, about their experiences raising their two young children in the Big Apple. More of a Momoir (and Dadoir) covering the last 10 years of their lives, Alex Simon write with a unique and humorous insight into the challenges facing parents today. They use their own hard-won experience as a springboard to discuss life before children and their determination not to have any, followed by their journey and eventual change of heart and the rollercoaster ride of having two children in two years in a seemingly non-child-friendly environment. Rather than a preachy, how-to guide, Simon Alex take the reader on a romp through the indignities and surprises that befell them. Their informative and often hair-raising stories of life in the concrete jungle make Little Kids, Big City a must-read for anyone who has ever had children, hated children or thought they might want to have them someday, as well as for any fan of their hit show.

“Alex McCord and Simon van Kempen s surprisingly down to earth account of their early days of parenting in NYC is as remarkable in its honesty as it is in its detail. --Cecily von Ziegesar, New York Times bestselling author of the Gossip Girl novels and mother of two at PS FabAlex and Simon don't take themselves too seriously which seems to be essential to parenting. Their fresh he said she said perspective on parenting is humorous and insightful. --Bethenny Frankel, New York Times bestselling author of The Skinnygirl Dish: Easy Recipes for Your Naturally Thin Life“A fun and entertaining read with an over-the-top enthusiasm for family and the joys of raising kids in the city. They manage to share lessons without sounding preachy and maintain a humorous light tone. --Alison Lowenstein, author of City Kid New YorkAbout the AuthorThe married couple of Alex McCord and Simon van Kempen are first and foremost the proud parents of two wonderful and endlessly energetic and creative children, Johan and François. They also happen to star in the hit Bravo television show The Real Housewives of New York City, where they all enjoy (or suffer at the hands of) a modicum of celebrity. Simon runs the upscale boutique Hotel Chandler in Manhattan while Alex using her visual merchandising graphic design skills, juggles several retail clients running the gamut from fashion to photography.When time allows she loves nothing more than to post her musings (as she's done many times) on the Huffington Post.
