This is a humor book for all lobster fans. If you're looking for ways to bake or boil a lobster, this book offers no recipes ? and no apologies for not including any. However, if you're looking for some deliciously funny myths and legends about everyone's favorite crustacean, this is the book to get. Inside you'll discover the Abominable Snow Lobster, prehistoric fur-covered lobsters, lobster satellites, and house-broken pet lobsters, among many others.
