FernandoDavid Thorne has a weird way to be funny. I mean, I feel like his life is like the adventures of James Bond or superheroes: he passed through so many things that I can't help but doubt those stories to be true. In the other hand, the coherence and strangeness of the narrative are so astounding that it would require a truly ingenious and alien mind to just make all that stuff up. Anyway, it's a great reading, I caught myself laughing really hard many times. If you're gonna try it, I recommend you prepare your spirit first, because there's some weird stuff coming in your way. 0 of 0 people found the following review helpful. they were fantastic. But this one is By Laura Raus I am a massive fan of David Thorne and I've read his previous two e-books, they were fantastic. But this one is, by far, his best! Hilarious, brought me to tears a few times and I loved that he said so much about himself - I don't know if he meant to do it! I loved it because I could relate to him and his experiences - especially the one where you drink magic tea and then hallucinate for such a long period of time, inconceivable how time passes and also, getting a weird service from a weird relative... thanks for writing this! I loved every moment of it. 1 of 1 people found the following review helpful. not because the book had nothing funny in it By Adman I laughed a lot, but maybe that's because I'm not a short man with a short wife with tightly curled hair. If I was, I'd probably not have laughed at all, but that would probably be due to being short and angry, not because the book had nothing funny in it. I don't know why David moved to the US, but whatever the reason was, it's not good enough. At last, the truth about Steve Irwin is out.

A hilarious collection of new essays by the the New York Times bestselling author of 27bslash6.com, The Internet is a Playground, and I'll Go Home Then; It's Warm and Has Chairs.
