Well worth the price especially since you can't find these books anywhere! A wonderful piece of nostalgia from my childhood! Highly recommended! :))))))3 of 3 people found the following review helpful. Love is...proposing with this book ! By Mehmet Gurtunal I am sure that most of you already know these cute couple very well...they used to pop up sometimes from a corner of your newspaper or sometimes from your favorite chewing gum wrapper. When I was a kid those scenes didn't mean too much for me, but after some decades...oh my God! Totally different...Not because I grew up, but because I found my perfect match in life, my second half, Yuliya! First I thought that it could be a good present for the Valentine's Day and ordered it from in February this year. It arrived in a thick and safe cardboard packaging. The print quality is good, the binding is strong and safe enough to ensure a long life...So it is highly possible that you can pass this book to your next generations! I started to turn the pages and realized that our cute couple look like us, act like us! Almost in every page I was seeing me and Yuliya...My heart started to beat faster. I even can not describe now how I felt at that moment. So, suddenly I

extended my first idea about the Valentine's Day gift and decided to make my proposal with this lovely book! I even drawn my own pages describing some of the moments we shared together, and put them inside the book to make it a little bit customized for us. In fact my proposal scenario was already planned months ago, but I thought it could be a nice idea to support it with "Love Is...All Around + our own pages".And, on February 14th she said "Yes!"I am very grateful to Kim and her deceased husband Stefano! They gave us a very nice present for our life...They may rest in piece.I highly recommend you to buy this book, if you think you are in such a pure and childish love like Kim and Stefano, and wish that you find many pieces of you within this book.0 of 0 people found the following review helpful.
BOOKBy janiraeCute and the history of the author (which is included) was priceless.

Love is . . . All Around, the newest book in the successful Abrams series, features the all-time best of these beloved cartoons! The story behind the “Love is . . .” phenomenon is legend: In the 1960s, a shy artist named Kim Grove found she could best express her feelings to Roberto Casali, the man she eventually wed, through charming love notes. Casali treasured the drawings—and recognized their universal appeal. In 1970, he shared his wife’s work with the Los Angeles Times, and the rest is history.An essay by Stefano Casali, Kim and Roberto’s son, completes this special book, offering an insider’s knowledge of the heartfelt “Love is . . .” cartoons.

About the AuthorKim Grove Casali began what became the “Love Is . . .” phenomenon in 1967 when she met and drew funny little cartoons for Roberto Casali, her future husband. Their son, Stefano Casali, has preserved and promoted his mother’s legacy of the universal messages of love since Kim’s death in 1997.
