You get a lot of bang for your buck, too, as I've worked on the first page for 3.5 evenings, and it's still not done. I may be slow, but I prefer to think of it as a very detailed picture that I'm taking my time with. I'm really impressed with the art and am looking forward to soothing my (very raw lately) spirit and making some pretty pictures.0 of 0 people found the following review helpful.
