Robert Van Waes : Maine Folks Maine Ways before purchasing it in order to gage whether or not it would be worth my time, and all praised Maine Folks Maine Ways:

Bob Van Waes, humor columnist for the Lincoln County News, has published a collection of his popular essays in this delightful offering. •Maine Folks Maine Ways contains 87 witty vignettes of Mainers and their ways, and is illustrated by 13 pen and ink drawings by the author. •In an exerpt from the review by Mike Corrigan in the Bridgton News, 9/23/04, Corrigan writes: “Van Waes’ voice is here... but the material gains its richness from the backwoods and lobsterin’ voices he has heard around him for a quarter of a century that the former college professor has spent in Maine... Not only is the book filled with old-time Maine Voices, but the Yankee witticisms extend to the back cover, where his fictional Maine woodsman, Twig Durfee, urges folks to slap down their \$15 becauseit’s a ‘wicked good read and double-duty treasure for e-mer-gency needs at any outdoor privy located in the state o’ Maine’... A book with such utility is hard to find in Damariscotta or Bridgton, or even in Madawaska.”
