Great adult coloring book~brings a smile to my face when I colorBy BethI love adult coloring books and usually get ones that have inspirational messages so when I found one that combined swearing with insprirational messages I had to buy it! This book is great. I've included some of the pages so you can check it out prior to buying. I took 1 star off because the coloring pages are rather basic and I like a little more detail in my coloring books. Take a look as this may not be a star reduction for you.Enjoy!0 of 0 people

found the following review helpful. Not for left-handed people!!By Karen StokesI was so disappointed when I found out the pages weren't perforated! I'm left-handed so it's easier for me to pull out the pages to color, than to worry about the binding getting in the way. Also note, the back of each page is black. Like black ink. You cannot swatch any color on any page or create any palette of this coloring book. That is probably the most frustrating thing. Plus the black ink got on my hand0 of 0 people found the following review helpful.
