I really like that it is trying to teach you to draw your own characters using the knowledge of expressions they teach your rather than learn to draw anime. A mirror will take you pretty far, but this

book can make the journey even more effective. Grab it! 0 of 0 people found the following review helpful. Anime making art By Jacob Mason This book is an amazing guide to draw animes. Love it By Brooke Bites I went to art school and studied fine drawing, but honestly the real money right now is in simplified stylized drawings. It is very easy to comprehend. The steps in this book, like many others, were easy to follow. It's a great buy for anyone who's into anime.

- How to add expressions to your anime characters.
- How to make the clothes fit the character's mood.
- How adding simple features can change the look of the character.
- How and where to add color to the character.

Though anime characters do not have many details as drawing people, they still need expressions, the right accents, and the right colors to bring the character to life.
