Ekaterina Chernova : The Cosmos Within: Detailed Design And Mandala Coloring Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Cosmos Within: Detailed Design And Mandala Coloring Book:

1 of 1 people found the following review helpful. Love the DesignsBy Ana DuncanEkaterina, you have beautiful designs. I love your art. They are very intricate in difficulty which I like. I enjoy your art. The Mandalas are not for the soft at heart. I recommend this coloring book for the intermediate and advanced. The beginner, if you are looking for a challenge this is a good one.1 of 1 people found the following review helpful. ... all of Ekaterina's coloring books in digital and I love them. The cover on this book is very ...By Brenda ShrevesI think I have all of Ekaterina's coloring books in digital and I love them. The cover on this book is very nice. Has the title and author on front with a catchy picture. Some of the digitals have a very generic cover and hard to find it again in my folders. The patterns in this book are really great and fun.0 of 0 people found the following review helpful. Inspiring pages to print colorBy CustomerI like a lot of these pictures, wanted to color some, but my printer died. It is a good way to decide if you really want to purchase the actual book. For that purpose, the online colorbooks have saved me a LOT of money. Many are not as great as they seem to be once you can flip through all the pages.

Enjoy and explore your creativity with this new coloring book for adults. Bring the swirling mixture of stars, people, lotus flowers, and flames to life with your choice of colors. Create interesting optical effects when coloring detailed

designs.

"Beautiful coloring images of our universe, I have not seen to many coloring books that include these types of pages, making it unique and worth it." - Michelle, Goodreads.com
