**Michael Hughes : The Crimson Shamrock** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Crimson Shamrock:

1 of 1 people found the following review helpful. Fun read By michelegusts Excellent book. Felt like I was with Chuck each step on his frustrating journey. 0 of 0 people found the following review helpful. Silicon Valley Thriller By Customer Enjoyed this page turner very much. The author has shades of Salinger and Grisham. It's a Silicon Valley thriller that keeps your interest from page 1. The protagonist is likeable but also has a bit of Holden Caulfield - a

character that could move from novel to novel. My only suggestion is that the story wraps up a bit quickly and neatly for my personal preference. 1 of 1 people found the following review helpful. Five Stars By joe cabello Great page turner thriller. Bonus points if you're a bay area native too

A scotch-swilling DUI attorney, a cynical congressional staffer, and a retired bomb-sniffing German Shepherd are just some of the characters Chuck Wesson meets after he takes a travel assignment from his new boss, mysterious Silicon Valley entrepreneur Axel DeWilde. Chuck has been sent on a flight from San Francisco to Boston in order to demonstrate the Crimson Shamrock, a breakthrough portable communication device code-named the RedClove. However, Chuck begins to suspect that all is not as it seems after a robber tries to steal the device at the airport, and his flight later has to be diverted to the Twin Cities after a threat is made. After his meeting is relocated to the D.C. suburbs and does not go according to plan, Chuck flies back to California to discover who and what are behind his travails.

About the Author Michael Hughes is a writer living in Los Angeles. His interests include economics, history, politics, current events, and all things automotive.
