**Leanna Conley : The Daily Janet** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Daily Janet:

One of those stories I devoured in a couple of days.Leanna Conley has written a sort of memoir meets biography. The author tells us how she found her way growing up under the influence and in the shadow of Janet, her ambitious, talented, beautiful, often wicked mother. Some of Leanna's best storytelling is when she brings us

back to Janet's formative years growing up in the south in a large family with two working and successful parents. Janet grows up smart, crafty, competitive, full of adventure and craving attention. Janet comes of age during WWII and meets a handsome, married officer, but this is after she has endured two major heartbreaks. Janet does marry the older officer, moves away from the south to the Midwest and has Leanna. Janet does not allow herself to be confined to the confines of the American suburb dream, instead she wraps her sassy personality in fashion and infuses it with booze. Janet may have had many unrealized dreams, but when she isn't blaming her circumstances she tries to rectify them by forming Leanna into her own vision. This could be a recipe for a daughter's and mother's lost love, but this is no Mommy Dearest. This mother, daughter relationship is a roll reversal and a love story. 1 of 1 people found the following review helpful. A great read for those with overbearing mothers By Customer A real wild ride. Miss Conley is a skilled story teller as witnessed in her previous work "War Stories." Janet is a larger than life fashionista. From the hollar of eastern Kentucky to the white sands of Pensacola Beach, Janet's antics travel with impunity. A great read for those with overbearing mothers! Everyone I have recommended the book to has asked me if they can get it electronically. E Book and Audio book would be a great addition. 0 of 0 people found the following review helpful. Five Stars By Charles Nevan Slone Leanna is so talented, I bought one for me and one for mom ( Bev)

And you thought your mother was nuts. From hilarious drama to childhood trauma, 'The Daily Janet' chronicles author and comedienne Leanna Conley's journey of being raised by a 1960s fashionista before the Devil had even heard of Prada. Janet is a chain-smoking martini enthusiast who swears like a sailor but dresses like Audrey Hepburn, and her erratic behavior has made for a sometimes stormy, but always loving, mother/daughter dynamic. Be prepared to laugh out loud at Janet's antics and pearls of wisdom as Leanna hops on the tumultuous ride to adulthood. . . in one of Janet's Cadillacs, of course.
