Would not have purchased had I realized the size. The word "mini" should be included in the description. Did not realize the need to read the dimensions on a book. Lesson learned! Will not buy from this seller again.0 of 0 people found the following review helpful. ... ad didn't mention the book was going to be super small, like pocket size bookBy Carson BowersThe ad didn't mention the book was going to be super small, like pocket size book. Completely unacceptable, I would have never gotten this book if it said pocket sized on it!0 of 0 people found the following review helpful. Be sure to read the DETAILS or "Just Live With It"!By A. A. WalshI too was as shocked as others to discover that this book was a miniature. But, returning to the description on line, I discover that the fine print does give its dimensions and that it is published by a press that specializes in miniatures. My bad for not reading that. So, I'll just keep it. However, I do think that describing the book in the main body of the offer as a "Hard Cover" will mislead most viewers. So be careful and read product descriptions

thoroughly. Caveat emptor, as they say.

When it comes to criminals, Darwin wades in the shallow end of the gene pool. Witness the astonishing idiocy of the absent-minded terrorist who opens a letter-bomb returned for insufficient postage, or the thief who steals electrical wire without shutting off the current, or the man who saws off his own leg to collect insurance. This collection of cautionary tales proves that crime does pay . . . a genetic dividend!

About the Author Wendy Northcutt started collecting the stories that make up the Darwin Awards in 1993, and founded [www.DarwinAwards.com](http://www.DarwinAwards.com) soon thereafter. She has been profiled in Salon magazine, and now divides her time between managing the website and working as an internet consultant. Her award-winning website is one of the most popular humor sites on the web today, with over 400,000 visitors a month and growing. It has received acclaim from USA Today, the BBC, and Yahoo!, and was chosen as a Cool Site of the Year 2000.
