Edwin Greenwood : The Deadly Dowager (Valancourt 20th Century Classics) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Deadly Dowager (Valancourt 20th Century Classics):

believe in the New York Times. Book was written in the 1930's. Took me a few chapters to get into the rhythm of the author's style of writing, but once I did, I couldn't put it down. It wasn't a "who done it" because you know all through out the book, but it's a how and how much longer will they be able to get away with it. Very fun read.4 of 4 people found the following review helpful. Darkly charming 30s thriller!By C. WilliamsonA really fun period piece, with one of the nastiest (yet in a charming way) characters I've ever come across. This should be made into a film starring Maggie Smith!1 of 1 people found the following review helpful. Brightly Dark and full of FunBy Deborah BrowerA wonderful diverting read. Witty and surprisingly timeless. A must read for those who enjoy an well written murder mystery.

When the Dowager Arabella, Lady Engleton announces to her relatives her jolly scheme to restore the family's fortunes by insuring their lives in favor of her grandson and heir, the young Lord Henry, they laugh at her and think her mad. But they won't be laughing for long. Soon she begins to kill them off one by one with sinister mirth and gruesome inventiveness . . . Forgotten today, Edwin Greenwood (1895-1937) was the author of several clever and darkly humorous crime novels that were highly acclaimed by critics and admired by the master of the macabre, Arthur Machen. This edition features a new introduction by Mark Valentine, who argues that although Greenwood's "novels have been largely lost to view, it is high time they delighted a fresh readership," and a reproduction of the original dust jacket art. "Mixes mirth and murder with immense spirit and success ... I am sure that each of the Deadly Dowager's methods will find its warm admirers." - Arthur Machen "Delectable ... it's a positive delight to watch her kill." - Saturday Review "Quite the jolliest crime story that has come our way in many moons." - New York Times
