**Britt Gillette : The Dittohead Guide to Adult Beverages** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Dittohead Guide to Adult Beverages:

I understand a dittohead as someone who repeats what Limbaugh says, which is all right, after all people's oppinions often coincide and sometimes it is just convenient for people to take someone else's word for it. Who has time to think for themselves, why not just parade a lot of

unresearched opinions like their gospel? Everyone knows that styrofoam is biodegradable while paper is not (Rush '91). Another fact that is that "there is no conclusive proof that nicotine is addictive" (Rush '94). Any true card carrying dittohead will tell you that both these statements are correct\*. Well about the book, I suppose that if I were conditioned to believe everything Rush had to say I'd find it hilarious, but obviously I wasn't. Instead I found it mildly funny, a feeling that was, while no where near as strong, similar to the chuckles I get from watching a good dark comedy, Dr. Strangelove comes to mind. I just laugh at the utter incompotence of what is in this book, I mean the 'Long-Haired, Maggot-Infested, Dope-Smoking Peace Pansy', why even put a label on those people, why not just kill them all as Coulter suggests? There could be a public execution, it would be a good way to pacify the public, since instilling a constant sense of fear can sometimes get boring. If you're a conservative and you need a laugh then this book is doubleplusgood. If you're a liberal and you want a slight chuckle then read this book, but do so without buying it. It's not long so maybe you can read it at a book store or library and put it back on the shelf. However, I'd recommend doing what I did and going to Britt Gillette's website and reading. Whatever you liberals do though, don't put money into this guy's pocket, it is against 'the cause'. Before I leave, I must say that I do like the language it was written in and I enjoyed the wit even if I didn't agree with any of it. Well I guess I'm off to have the Hannity Hannitizer\* If Rush ever did rectify these statements then I wasn't aware and would like to apologize to all dittoheads for using those examples, but if he didn't then forget about this endnote.

The author has marketed to his audience well but it's also obvious that he is a longtime listener. The book is simply too detailed to not be. Inspired by Rush, Britt Gillette set out to "create his own job" by fusing his passions: Rush Limbaugh and creative writing. Thus, The Dittohead's Guide To Adult Beverages is born. A book of adult beverage recipes for fans of the show. All of them are legitimate adult beverage recipes and each has an explanation of why it's named what it is and what the name means. Overall, this is really clever stuff and if Rush gets to talking about it it will definitely become a best seller. The names by themselves are funny. Global Warming Cider, Grape Gorbasm, Gray-Out Davis, Hanoi Jane, Nikita Dean, Open Line Friday Fizz, Puff The Magic Daschle, [R]nold Schwarzeneger, Uglo-American Mist are just a few. Fans of Rush will love this. People who don't listen to him won't be able to make sense of it. That's the only way I wouldn't recommend it.

They're only written by bitter libs who are upset because young people are being influenced by Rush. This book proves much of what Rush says everyday on his program and its positive message negates what the libs in the media have been saying for years (i.e. that Limbaugh is a hate-monger, heartless and cruel) This book is clever and funny from beginning to end, even the one-star reviewers admit that. Dittoheads everywhere should buy this book. Not only will they like it, but the libs will cringe with every copy sold. Five stars minimum!

From the Publisher If you're a fan of Rush Limbaugh, be prepared to laugh out loud as you read The Dittohead Guide To Adult Beverages, a hilarious compilation of "adult beverage" recipes specifically engineered for audience members of The Rush Limbaugh Show. Dittoheads across the Fruited Plain will immediately identify elements of the "Limbaugh Lexicon" and the hit radio programs trademark irreverent humor in recipes such as "Environmental Wacko Whiskey," "Feminazi Frazzle," and "John F-ing Kerry". The author (a fourteen year listener and dittohead since the age of twelve) set out to create a book capturing the essence of the dittohead experience, and the result is a humorous look at the American political landscape that only fellow dittoheads can truly appreciate. If you love Rush Limbaugh and the EIB network, you can ill afford to be without this book!

About the Author When Britt Gillette graduated from college a few years ago, he faced a job market mired in the mediocrity of the Clinton recession. Jobs were scarce, but he remained optimistic. Because since the tender age of twelve, he's been an avid attendee of the Limbaugh Institute For Advanced Conservative Studies. The Rush Limbaugh Show taught Britt that in America if you can't find a job, then you can create one. So with few job prospects, that's exactly what he did. Utilizing the show's trademark irreverent humor, he created a book destined to become part of the "Limbaugh Lexicon" in its own right. More importantly, he proved that in America you don't have to depend on the government, or even the economy, for a job. You only have to depend on yourself.
