Kelly Pinnell : The Dolly Made Me Do It before purchasing it in order to gage whether or not it would be worth my time, and all praised The Dolly Made Me Do It:

The Dolly Made Me Do It is a collection of fourteen stories gathered from the early years of the author's fly fishing experience. Follow along as he takes you on an often hilarious ride through the pitfalls and joys of learning the great sport. While you might not learn anything about how to fish, you may learn a thing or two about why.

"My attention was had...These 110 pages of wryly crafted words are worth getting lost for." --John Erskine, Fish Alaska Magazine, February 2005
