By Starr
This is a great gift. I picked this up for my husband as a Christmas gift. I flipped through it myself and I was laughing out loud. This book is definitely on the cheeky side and I think anyone who has seen the movies will at least chuckle their way through it and then come back for more later. I'm going to order a few more for friends that I know will love this.

I bought this as a sort of gag gift for my husband. The timing was perfect since the new Star Wars had just come out. He thought it was hilarious. He showed all of his friends and brought it around with him to show it off. It's definitely the least useful gift I have ever bought for anyone, but it will definitely make you laugh.

This book was created for Star Wars fans with a slightly twisted sense of humor. It is a parody of the characters in the

Star Wars universe and created with all the love in the world that Ive got for them (yes, even Jar Jar). Within these pages, youll find all your favorite Star Wars characters, represented by the action figures that I have purchased over the years, engaged in all manner of absurd sexual positions and situations. Dont try any of the positions in this book. Most of them are not physically achievable, and Ive got no idea where youd be able to find a Rancor, anyway. Dont buy this book for small children. Thats just stupid. Buy it for your boyfriend, girlfriend, husband, wife, friend or parent. Buy it for anyone you know who loves Star Wars and knows that the internal temperature of a Taun Taun is always going to be Luke Warm. May the Force be with you.
